ICBDA ANNOUNCES FREE CONVENTION REGISTRATIONS FOR 2011 CONVENTION

The International Choreographed Ballroom Dance Association invites all round dancers to attend the 34th annual convention to be held in San Antonio on July 7-10, 2010. In addition to the regular program, the convention will have an expanded lineup of teaches, workshops, education clinics, and evening dancing designed for the intermediate dancer (phases 3-4). The enhanced dance lineup is aimed at round dancers who desire to learn more about this great activity and improve their dancing.

To entice newer dancers to experience ICBDA, the organization is offering a limited time special promotion during the month of May.

During the month of May, 2010, any dancing unit, registered for the 34th convention in San Antonio, who enlists the registration of two additional dancing units for the convention, who have not attended the previous two conventions (32 and 33), will receive a complimentary registration for the 35th convention in Lakeland, FL on July 20-23, 2011.

The complete rules and guidelines for the promotion are available on the ICBDA website at www.icbda.com.

“This promotion is designed to spread the word about this great convention. The annual ICBDA convention is a premier 4 day round dance event offering top-notch instruction and dancing for the phase 3-6 round dancer” said Ed & Sharleen Martin, current president of ICBDA.

ICBDA, formerly the Universal Round Dance Council (URDC), was formed to educate the public in dance technique and to encourage dance as an activity useful to the individual and a benefit to the community. The annual ICBDA convention, usually held in July of each year, brings top teachers from the US and abroad who volunteer their time and expertise to share their knowledge of dance.

You are invited to register for the 34th convention in beautiful San Antonio. To register for the convention, please visit www.ICBDA.com, or contact the convention registration chairman, Mike & Peggy Corning, (956) 369-3693, mikepeggycorning@aol.com.
